

We don't have to go to far  
Just as long as we are nowhere near this town  
No need to plan just take the car  
Spend a night under the stars to calm us down

We can go to somewhere we can breathe  
We don't have to think this through let's just leave

**So take my hand as if we're on the run and heading to the sun  
I don't care if we don't have too much  
Because it's enough with just the two of us**

It's okay to take our time, leave anxiety behind and find ourselves  
We don't have to follow signs, this is just for you and I to figure out

We can go to somewhere we can breathe  
Don't you worry living life is free

**So take my hand as if we're on the run and heading to the sun  
I don't care if we don't have too much  
Because it's enough with just the two of us**

Let's not wait for an excuse  
It doesn't matter what we do  
When you're with me and I'm with you, woah

**So take my hand as if we're on the run and heading to the sun  
I don't care if we don't have too much  
Because it's enough with just the two of us  
Just the two of us, just the two of us, just the two of us**
