

I just need a little time, got so much worry on my mind
We work so hard and it's not fair, we're just not getting anywhere
So what do you say to icecream, you, me, sunshine?
A warm breeze, sand, sea, blue skies
Where do you want to go oh, oh?
Where do you want to go oh, oh?

Cause this time it's our turn, don't care about sunburn
I just want to spend some time away with you
There's no need for rushing, let's sit and do nothing
I just want to spend some time away with you

Suitcase, rocks, waves, our time
Hills, bays, cafes, moonshine
Where do you want to go oh, oh?
Where do you want to go oh, oh?

Cause this time it's our turn, don't care about sunburn
I just want to spend some time away with you
There's no need for rushing, let's sit and do nothing
I just want to spend some time away with you

We can go wherever you want to go
You just have to let me know
Let's not worry our lives away
So what do you say to

Icecream, you, me, sunshine
A warm breeze, sand, sea, blue skies
Where do you want to go oh, oh?
Where do you want to go oh, oh?

Cause this time it's our turn, don't care about sunburn
I just want to spend some time away with you
There's no need for rushing, let's sit and do nothing
I just want to spend some time away with you
Away with you
